

Sergi Sarrió Vila

Software Developer · UI/UX Designer

Norway sarriovsergi@gmail.com

Education

- IES Mare Nostrum** —Degree MAD (Cross-Platform Application Development) Sep 2023 - Jun 2026
- EASDA** (School Arts and Design) —Graphic Design and Marketing Sep 2015 - Jun 2018
- Veles e Vents** —Advertising Photography and Videography Sep 2012 - Jun 2014

Experience

- Flåmsbana** — Tourist Guide (summer season) May 2025 - Present
 - Friendly environment
 - Guiding passengers
 - Communication Skills
 - Welcoming guests
 - Team collaboration
 - Passenger assistance
 - Welcoming and assisting passengers boarding the famous Flåmsbana train during the summer season.
 - Creating a comfortable and friendly environment for guests from diverse cultural backgrounds.
 - Organising and coordinating groups to ensure smooth boarding and tour flow.
 - Developing strong communication skills and customer service expertise in a high-volume tourism environment.
- AYESA** — UX/UI Designer Feb 2024 - Nov 2024
 - Figma
 - UXDesi
 - Mobile
 - Wireframing
 - npv
 - Prototyping
 - Designed the complete UX for a school management app (mobile + web) in Figma.
 - Built a reusable component library in Figma for hand-off to front-end developers.
 - Presented interactive prototypes and design rationale directly to clients.
- NTT DATA** — Software Developer Dec 2020 - Dec 2023
 - Node-RED
 - React Native
 - Node.js
 - JavaScript
 - Ionic
 - Puppeteer
 - MongoDB
 - SQL
 - Automated Mapfre's manual workflows with Node-RED and Puppeteer, saving 1,000+ hours.
 - Extracted data from frame-nested pages and loaded it via bulk SQL inserts into databases.
 - Built the Santa Lucia insurance app: Ionic, MongoDB, third-party API integration, JWT auth.
 - Developed a React Native web tracking application.
- IXIA REGAL** — Graphic Designer Sep 2018 - Sep 2019
 - Photoshop
 - Illustrator
 - HTML
 - CSS
 - Marketing
 - Social Network
 - Designed product images, marketing visuals, and landing pages for social media campaigns.
 - Edited and retouched photos for e-commerce and promotional use.
 - Created static web content and occasionally updated HTML/CSS for company web pages.
 - Collaborated with the marketing team to ensure design consistency and brand alignment.
 - Gained foundational experience in digital design while studying at the School of Arts of Alcoy.

Featured Project

COOPER

React Native Expo TypeScript SQLite StoreKit

Personal finance iOS app: log income and spending against a monthly budget using a savings-hierarchy method. Offline-first, all data on-device in SQLite with Face ID lock and a native iOS home-screen widget. Freemium Pro via StoreKit; 6 languages; 85 test files. Built with Claude Code.

- In preparation for App Store release [iOS — personal finance app](#)
- 161 commits, private repo [App Store — coming soon](#)

Real-time Messaging Backend

MongoDB RabbitMQ Express Socket.IO Node.js JavaScript

Designed and developed a scalable backend enabling bidirectional communication between users for chat-like applications. Implemented offline message queuing with RabbitMQ to ensure delivery once users reconnect. Built with Node.js (JavaScript) and Socket.IO for real-time communication, and MongoDB as the primary database supporting CRUD operations [github.com/SergiSarrioV/realtime-chat-api](#)

- Check project on GitHub: [realtime-chat-api](#)

Flåm Tourist Card

Next.js 15 React Native FastAPI Stripe Supabase TypeScript Turborepo

Tourist card platform for Flåm: visitors buy a pass, book experiences, and carry it in Apple Wallet. Solo-built across 5 apps (Next.js 15, React Native, Electron) using FastAPI, Stripe PaymentIntents, and Supabase. Turborepo monorepo, 374 commits, 29 test files. Built with Claude Code.
