Education

IES Mare Nostrum —Studies in Multiplatform App Development (CFGSDAM) Sep 2023 - Jun 2026

EASDA (School Arts and Design) —Graphic Design and Marketing Sep 2015 - Jun 2018

Veles e Vents —Advertising Photography and Videography Sep 2012 - Jun 2014

Experience

Flåmsbana — Tourist Guide (summer season) May 2025 - Present

Friendly environment Guiding passengers Communication Skills Welcoming guests Team collaboration Passenger assistance

- Welcoming and assisting passengers boarding the famous Flåmsbana train during the summer season.
- Creating a comfortable and friendly environment for guests from diverse cultural backgrounds.
- Organising and coordinating groups to ensure smooth boarding and tour flow.
- Developing strong communication skills and customer service expertise in a high-volume tourism environment.

AYESA — UX/UI Designer Feb 2024 - Nov 2024

Figma UX Design Mobile Wireframing Component Lib. Prototyping

- Designed the complete UX for a school management app (mobile + web) in Figma.
- Built a reusable component library in Figma for hand-off to front-end developers.
- Presented interactive prototypes and design rationale directly to clients.

NTT DATA — Software Developer Dec 2020 - Dec 2023

Node-RED React Native Node.js JavaScript Ionic Puppeteer MongoDB SQL

- Automated Mapfre's manual workflows with Node-RED and Puppeteer, saving 1,000+ hours.
- Extracted data from frame-nested pages and loaded it via bulk SQL inserts into databases.
- Built the Santa Lucía insurance app: Ionic, MongoDB, third-party API integration, JWT auth.
- Developed a React.js website tracking application.

IXIA REGAL — Graphic Designer Sep 2018 - Sep 2019

Photoshop Illustrator HTML CSS Marketing Social Network

- Designed product images, marketing visuals, and landing pages for social media campaigns.
- Edited and retouched photos for e-commerce and promotional use.
- Created static web content and occasionally updated HTML/CSS for company web pages.
- Collaborated with the marketing team to ensure design consistency and brand alignment.
- Gained foundational experience in digital design while studying at the School of Arts of Alcoy.

Featured Project

COOPER

React Native Expo TypeScript SQLite StoreKit

Personal finance iOS app: log income and spending against a monthly budget using a savings-hierarchy method. Offline-first, all data on-device in SQLite with Face ID lock and a native iOS home-screen widget. Freemium Pro via StoreKit; 6 languages; 85 test files. Built with Claude Code.

✦ Landing page [iOS — personal finance app](#)

✦ [App Store — coming soon](#)

Real-time Messaging Backend

MongoDB RabbitMQ Express Socket.IO Node.js JavaScript

Designed and developed a scalable backend enabling bidirectional communication between users for chat-like applications. Implemented offline message queuing with RabbitMQ to ensure delivery once users reconnect. Built with Node.js (JavaScript) and Socket.IO for real-time communication, and MongoDB as the primary database supporting CRUD operations [Notion - Real-Time Chat & Messaging Backend](#)

Flåm Tourist Card

Next.js 15 React Native FastAPI Stripe Supabase TypeScript Turborepo

Tourist card platform for Flåm: visitors buy a pass, book experiences, and carry it in Apple Wallet. Solo-built across 5 apps (Next.js 15, React Native, Electron) using FastAPI, Stripe PaymentIntents, and Supabase. Turborepo monorepo, 374 commits, 29 test files. Built with Claude Code.

✦ I show this project only in a videocall. [Notion Page - Analytics of Flåmsbana \(main idea\)](#)
